## TOOLS AND SOLUTIONS FOR GRITHCAL INDUSTREIIS

## SpinTORQ Pneumatic Continuous Rotation Torque Wrench

## FEATURES

- Low-profile head continuously rotates 360 degrees in forward and reverse, drastically reducing time spent torqueing fasteners, while allowing the wrench to operate in very limited access bolting applications
- Dual-motor technology allows automatic two-speed operation for fast rundown speeds and precise final torque speeds
- Accuracy of applied torque is $+/-5 \%$
- Wrench head can be indexed independently from the tool's gearbox, allowing the handle to be ergonomically positioned during operation
- Secondary safety trigger requires the operator's hands to be placed safely away from pinch points during operation
- Fit and reaction points are designed to standard ANSI and API piping flange dimensions, so the tool rests against adjacent nuts during use
- Robust design combines a well proven and highly efficient epicyclical gearbox with a double enveloping worm gear drive to provide reliable and repeatable performance
- Durable powder coating is ideal for demanding work environments

Durabe powder coaing is idealfor detandingok envirnter
